

VELOSTIGMAT SERIES II. F-4.5.

The series II F-4.5 is our new high speed Anastigmat, fully corrected in every respect and is at least, equal to any objective of its type on the market. Made in 6 sizes, the smaller sizes being particularly adapted to cameras of the reflex type and all small outfits where extreme speed and fine definition is desired. The three larger sizes are equipped with our simplified diffusing adjustment making them desirable for use in the studio for portraits, groups and all classes of professional work as well as for Home Portraiture.

VERITO DIFFUSED FOCUS F-5.

(*"TRUE TO LIFE"*)

A pictorial or diffused focus lens giving broad, sketchy negatives. Entirely different from all other soft focus lenses as it is a specially designed double lens made on an original formula which, while it gives the desired effect, shows no distortion, double lines, ghosts, flare or other optical imperfections.

No.	Size	Equivalent Focus	Diameter of Lens	Price with Studio shutter
